Back to school (Randomly interviewing people about their secondary schools)

Tenglong:

First day of school was very exciting! I didn't expect that the orientation would be held by secondary students instead of Teachers! There were fun

activities for us to enjoy and bond with other classmates. Into the first 3 weeks of school, I mostly enjoyed it — fun learning and bonding with my friends and seniors (buddies). I also made some good friends! :) So yea, I look forward to learning more things in school and enjoying my time in secondary school! :) 愿大家在新的一年身体健康、勇往直前、学业进步、新年快乐 🇨🇳 !

James:

First few days of school were really fun, the orientation program was led by our year 4 seniors and we had a fun time doing the activities prepared for us and the food was delicious. When lessons started, I was really excited and honestly, the amount of homework isn't a lot, and I did well in the cca trials too. The food there was delicious, especially the bubble tea, and overall it wasn't stressful at all, unlike what some people say.

祝你们新年快乐、学业进步、万事如意、年年有余!

Zuwan:

Secondary school is very interesting because I am learning stuff. The End.

oh no not again

This article is for those of you who are interested about what happens in NHPS

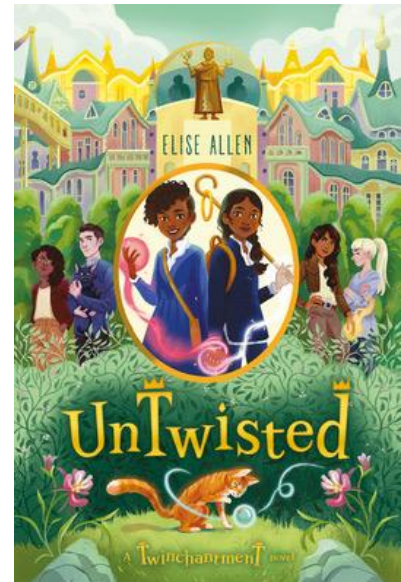

Just months after the TAG class system officially ended, now the TAG class system's successor, the . is officially ending. Now, starting with the P4 people, they will have to go to a different class for EVERY SINGLE SUBJECT. This is getting quite out of hand. Imagine what happens when it's time to switch classes.

For each subject, each person is allocated to a different class, and they are named like this: [level][subject abbreviation][number]. For example, there is an English class called 4E1. (BTW this information is not a primary source it is a secondary source; it is not verified)
